

OUR FLEET

'Blue', Moody 54

Luxury ocean going yacht
with 3 cabins and twin heads

Ideal for corporate day-
charter or cruises for our
most discerning of clients

The Moody 54 was a huge success from the moment it was unveiled, winning the coveted British Nautical Award in 2000 and 'Blue' must be one of the best examples available worldwide.

Although she has a powerful three spreader rig, careful thought has been given to ease of handling. Stiff, immensely strong, yet light enough to maintain optimum performance across the full range of ocean-cruising conditions, 'Blue' has been designed without compromise. Stand equipment includes furling for all sails, electrically powered primary winches and a 10 hp bow-thruster. Our centre-cockpit Moody 54, with her elegant blue hull manages to combine effortless sailing with luxury, making her a superb, ocean-going cruiser. The yacht also has state-of-the-art navigation and, of course, safety systems.

Elegantly appointed throughout, her raised saloon is a delight. Spacious and yet warm, with central heating/air conditioning throughout, she has an inviting interior with natural light flooding in through her side and forward facing windows. The saloon also has a large flat-screen television with DVD player. There are up to seven comfortable berths, with three generously proportioned private cabins. The spacious owner's state-room includes full en-suite facilities.

'Blue' is a perfect platform for corporate entertainment, team building sailing events and luxury cruises and she is coded to meet the stringent MCA standards for commercial charter. She takes up to twelve guests plus skipper and first mate/hostess on day sails and a maximum of six guests overnight.

We believe 'Blue' exemplifies our charter policy, which is to provide you with a clean, safe, modern yacht equipped to the highest standards, ensuring that cruising with Charter For You will be pleasurable and memorable experience.
