

OUR FLEET

'Dileas'

Bavaria 36 with 3 double cabin layout, sleeping up to 8

'Dileas' is a rather special yacht to us - we bought her new, as our personal yacht and her equipment inventory is vast. She has been very lightly used in the Adriatic before returning, under sail, to Scotland to strengthen our charter fleet.

Since its introduction, the Bavaria 36 has become one of the most popular production boats - it offers very generous, comfortable and appealing accommodation with superb performance under sail.

The fully-battened mainsail has been modified by adding an additional, third slab reef with a convenient 'Packmain' storage system. On the foredeck the crew will find her electric windlass takes the hard work out of anchoring.

Top quality electronic instrumentation is fitted throughout 'Dileas', including colour chart plotting/GPS system, wind instruments, VHF radio and a radio/CD player. Paper charts and other, traditional navigation equipment, are also provided.

In the rich, warm, mahogany saloon you will find a table large enough to seat the crew and guests and, if you use 'Dileas' at the beginning or end of the season, you may choose to use the programmable central heating system.

There is running hot water to the galley and head. In the galley there is a double burner stove with oven, fridge, twin sinks and ample storage space. As well as the three double cabins there is one single berth in the saloon.

We believe 'Dileas' exemplifies our charter policy, which is to provide you with a clean, safe, modern yacht equipped to the highest standards, ensuring that cruising with Charter For You will be a pleasurable and memorable experience.
