'Jasmine'

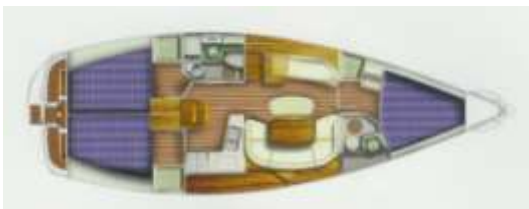

Jeanneau Sun Odyssey 40.3
3 double cabins sleeping up to 8,
2 heads and twin wheel steering

'Jasmine' is one of the first Sun Odyssey 40.3 yachts from the French manufacturer, Jeanneau. She is exactly what you'd expect from this manufacturer with much thought devoted to the design of the very light and airy accommodation. Her sailing performance is excellent and clearly benefits from the reputation Jeanneau have built for fast and comfortable cruising yachts.

The battened mainsail has slab reefing with a convenient 'Packmain' type storage system. The genoa has a roller reefing system, controlled from the cockpit, as are all other major sail controls. On the foredeck the crew will find the electric windlass; a major benefit when raising anchor.

Top quality Raymarine instrumentation throughout includes colour chart plotting/GPS and autopilot systems which communicate with all wind, depth, speed and log sensors. This ensures the skipper has all relevant information to hand both in the cockpit and below decks. Paper chart systems are also available.

In the light and bright saloon you will find a beautiful table large enough to seat the crew and guests and, if you choose to use 'Jasmine' at the beginning or end of the season, you may want to use the programmable central heating system.

There is running hot water to the galley and both heads. In the galley there is a double burner stove with oven, fridge, twin sinks and ample storage space. As well as the three double cabins there are two single berths in the saloon.

We believe 'Jasmine' exemplifies our charter policy, which is to provide you with a clean, safe, modern yacht equipped to the highest standards, that cruising with Charter For You will be a pleasurable and memorable experience.
